

Water is Cool in School and Bog Standard

National campaigns to raise standards of provision and access to drinking water and toilets for all pupils

During term time, the bulk of any child's day is spent at school. How much they drink and how often they go to the toilet are integral to child health and well-being. The important focus on encouraging pupils to drink healthy amounts of water at school and to eat higher-fibre healthy food must be accompanied by having toilets that pupils are happy with, and able to use when they need to.

Drinking Water www.wateriscoolinschool.org.uk

| Does your school..... | Tick |
|---|------|
| ensure good quality mains water within the school? | |
| provide water free of charge at all times? | |
| provide sufficient numbers of water outlets, including in canteens? | |
| permit access to drinking water throughout the day? | |
| ensure that nobody is denied access to water by reason of any disability? | |
| ensure that hygienic, modern and preferably chilled water sources are available and maintained? | |
| promote good habits of water consumption, particularly while exercising or in warm weather? | |
| allow pupils personal water bottles, on desks and to take to PE? | |
| ensure water is dispensed from facilities that promote a positive image and are a long term sustainable solution? | |
| avoid drinking water supplies in toilet areas? | |

Toilets www.bog-standard.org

| Does your school..... | Tick |
|---|------|
| allow pupils to use the toilets whenever they need to, including during lessons? | |
| provide sufficient numbers of toilets, including sufficient cubicles for boys? | |
| provide suitable toilets for pupils with special needs that they can get to and use easily? | |
| ensure toilets are private and have working locks on all cubicle doors? | |
| clean the toilets properly? | |
| maintain the toilets in good repair? | |
| provide absorbent toilet paper in all cubicles? | |
| provide warm water, sufficient soap and hand towels or electric dryers? | |
| provide sanitary products and sanitary disposal units in toilets for girls aged eight and over? | |
| work with pupils to free toilets from bullies and smokers? | |
